Fig. S5

A: Correct exam questions (%) vs. Correct questions total (%)
B: Correct exam questions (%) vs. Correct questions 1st attempt (%)
C: Correct exam questions (%) vs. Total time (h)
D: Correct exam questions (%) vs. Total questions
E: Correct exam questions (%) vs. Time per question (s)
F: Correct exam questions (%) vs. Number of logins

Time in seconds to answer a question. Time starts when question is displayed and stops when an answer is selected.

Percent of correct answered questions in final exam

R² Linear = 0.002

Percent of correct answered questions on McPeer

R² Linear = 0.510

Percent of correct answered questions in first attempt.
First attempt equals all 440 questions were answered for the first time

R² Linear = 0.524

Number of Logins during usage of McPeer

Number of answered questions on McPeer correct and wrong

Total time (h)

Total questions

Time per question (s)

Number of logins
