What Works? In dementia training and education

National Audit of Dementia Training and Education - Survey 1

The aim of this questionnaire is to capture information about training and education on dementia for health and social care staff; whether this is at a basic or sophisticated level, and inclusive of dementia-specific components of broader care-related programmes. We are keen to hear from training/education providers, commissioners, and those who buy-in training/education for their staff or send their staff to external courses. This could include face-to-face learning, online based courses, mentoring schemes or educational materials.

This survey may take between 10 minutes and an hour to complete, dependent on your organisation's involvement in training/education provisions and the quantity and complexities of packages available. You will not be able to save your progress to return to at a later date, so it is important that you allow yourself enough time to complete the survey. However, should you have a number of programmes to tell us about, it is possible to complete the survey more than once if necessary.

It is recommended that you have some basic information about your training package(s) to hand before starting the survey if applicable, as this will save time. If you are unsure about any elements of the training you provide, we are happy to receive responses from more than one member of your organisation should they have better knowledge of different packages/modules. Please share this link with your colleagues.
The survey will request the following information:

- Detailed content of training/education packages
- Learning outcomes
- Development of the training (if relevant)
- Attendance/basic demographic information of trainees
- Frequency of training delivery
- Costing of training and materials
- Evaluations where applicable
Please read the information sheet on the next page carefully prior to completing this questionnaire.

Information Sheet

The What Works Study
We are carrying out research commissioned by the Department of Health, on behalf of Health Education England and supported by Skills for Care and Skills for Health. We have been asked to find out what ingredients lead to effective dementia training and education that enhances staff knowledge, skills and positive attitudes towards providing good dementia care. In order to do this we need to find out what training on dementia is currently being delivered/commissioned around the UK.

What do I have to do?
We are asking all care providers, training providers and training commissioners, to complete an online national survey about the training they deliver or implement in their organisation. The survey aims to collate information with regards to the nature of current training and education packages and where they have been delivered. The survey should take no longer than 20 minutes.

What will be done with the information collected?
We will use the information to develop a picture of dementia training and education in the UK. A second survey has been developed to find out more about staff knowledge and skills. Where you have indicated that training has been delivered, we may ask you to help us access staff who have completed a specific training package, whom we will invite to take part in the second survey of those who have received the training. We will also be selecting some sites where training seems to have been particularly effective, to take part in an in-depth case study later in the research. This would be voluntary so by completing this survey you are not committing to taking part in any future elements of the research. We will write a report about what we find out through this survey but your organisation’s contribution will be kept anonymous. We’ll send you a summary of what we find.

Will the information be kept confidential?
Yes, all information collected through this survey will be kept anonymous and confidential. Only the research team will have access to the data. As part of an agreement with a team of researchers within the Faculty of Health and Medicine at Lancaster University, some survey responses may be made available to them for use in concurrent research. This will allow us to share the resources required in obtaining similar data, and reduce the survey burden on organisations. You have the opportunity to opt out of this at the bottom of this page. Any data and information we collect for the study will be in full compliance with the Data Protection Act (1998).
Do I have to take part?
You do not have to complete the survey if you do not wish to participate in the study, and you do not have to provide a reason. You can also withdraw from the study up until end of November 2015.

What are the risks and benefits of taking part?
The risks related to completing a survey are minimal. However participating in the study has a number of benefits. By completing the survey about your training, you are ensuring that your training package is considered as a potential package to be followed up later in the study to assess how effective it is. Sites that are approached to take part in the later case studies will have an opportunity to be named in relation to good practice (providing that we are given explicit permission to do so; otherwise all findings are completely confidential and reported anonymously). However, we can only conduct further study into those training providers/packages that are included in this survey.

Ethics
All research is looked at by an independent group of people, called a research ethics committee to protect your interests. This research project was given a favourable opinion by Leeds Beckett University Research Ethics committee on 30th July 2015.

If you have any further questions please contact the research team.
E-mail: whatworks@leedsbeckett.ac.uk

This is independent research commissioned and funded by the Department of Health Policy Research Programme (Understanding Effective Dementia Workforce Education and Training: A Formative Evaluation (DeWET Evaluation), PR-R10-0514-12006).

Q1.1 Please tick this box to confirm that you have read and understood the participation information sheet and agree to participate in this survey (you will not be able to continue unless this box is ticked).
☐ I understand the information provided and agree to participate in this survey

Q1.2 If you do not wish for your response data to be shared with relevant members of the Faculty of Health and Medicine at Lancaster University, please tick this box.
☐ I do not wish for my responses to be shared with Lancaster University

Q1.3 Which of the following best describes your organisation?
☐ Training provider (e.g. Private company, Higher Education Institution)
☐ Care provider (e.g. Acute NHS Trust, Community Pharmacy)
☐ Commissioning Group or Clinical Network (e.g. LET B, Local Authority, CCG, SCN)
Q1.4 Training provider - please specify type
- University
- Private/contract training company
- Charitable organisation
- Other
Please specify:

Q1.5 Care provider - please specify type
- Primary care
- Acute care
- Charitable care organisation
- Home care/domicillary care
- Community or Mental health Trust
- Residential or nursing home
- Other
Please specify:

Q1.6 Training provider - has your organisation's training in dementia been delivered to health and social care staff?
- Yes
- No
- Unsure

Q1.7 Care provider - does your organisation do any of the following (please tick all that apply):
- Provide staff training or education in dementia (developed in-house)
- Buy-in staff training or education in dementia from another organisation
- Send staff to externally provided training or education programmes in dementia
- No - none of the above
- Unsure

Q1.8 Commissioners and Clinical networks - are you involved in the provision of dementia training/education in any way, for health and social care staff?
- Yes
- No
- Unsure
Q1.9  Training providers - How many dementia related training courses/programmes do you wish to tell us about? (If you have more than 6 you may need to complete this survey twice)
- 1
- 2
- 3
- 4
- 5
- 6

Q1.10  Care providers - How many dementia related training courses/programmes do you wish to tell us about? (If you have more than 6 you may need to complete this survey twice)
- 1
- 2
- 3
- 4
- 5
- 6

Q1.11  Commissioners and Clinical Networks - How many dementia related training courses/programmes do you wish to tell us about? (If you have more than 6 you may need to complete this survey twice)
- 1
- 2
- 3
- 4
- 5
- 6
Section 2 - For Care Organisations

About you (this will be used to contact you if we wish to undertake further research on the outcomes of the training you tell us about):

Q2.1 Your name: ____________________________________________________________

Q2.2 The organisation you are completing this survey on the behalf of: __________________________________________________________________________________________

Q2.3 Your email address: _______________________________________________________

Q2.4 Your telephone number: ________________________________________________

Section 2: For Training Providers

About you (this will be used to contact you if we wish to undertake further research on the outcomes of the training you tell us about):

Q2.22 Your name: ____________________________________________________________

Q2.23 The organisation you are completing this survey on the behalf of: __________________________________________________________________________________________

Q2.24 Your email address: _______________________________________________________

Section 2: For Commissioners and Clinical networks

About you (this will be used to contact you if we wish to undertake further research on the outcomes of the training you tell us about):

Q.2.52 Your name:

Q.2.53 The organisation you are completing this survey on the behalf of:

Q.2.54 Your email address:

Q.2.55 Your telephone number:
Training course/package 1:

Q2.56  Name of training package:
_______________________________

Q2.57  What issues did you consider when choosing to purchase/develop this particular training? (Please tick all that apply)

❑ Content met identified training need
❑ Provided locally
❑ Affordable cost
❑ Reputation of provider
❑ Delivery method met our needs
❑ Training could be delivered in a timely manner
❑ Sustainable delivery
❑ Other
Please specify:
_______________________________

Q2.58  How many times has this training package/programme been delivered? (Please leave blank if unknown)
_______________

Q2.59  Which type of organisations has this training been provided to? (Please tick all that apply)

❑ Acute care
❑ Primary care
❑ Mental health trusts
❑ Community outreach services
❑ Residential/nursing homes
❑ Community pharmacies
❑ Domiciliary care
❑ Other
Please specify:
_______________________________

Q2.60  How many organisations has the training been provided to? (Please leave blank if unknown)
_______________

Q2.61  Approximately how many participants have received the training since January 2012? (Please leave blank if unknown)
_______________________________
Q2.62 How much does the training cost for the organisation? (If free write '0', please leave blank if unknown)

_____________

Q2.63 How much does the following cost per training cycle? (If unsure or not applicable, please leave blank)

Q2.63 Staff course fees

_____________

Q2.64 Release of staff

_____________

Q2.65 Room hire

_____________

Q2.66 Equipment

_____________

Q2.67 Release of trainer

_____________

Q2.68 If training was developed in-house, how much did it cost to develop?

_____________

Q2.69 Approximately how many staff hours went into its development?

_____________

Q2.70 What grade or type of staff was the training aimed towards? (Please tick all that apply)

☐ All
☐ Ancillary and clerical (e.g. porter, secretary, domestic staff)
☐ Unqualified clinical/care staff (e.g. nursing assistant, support worker, residential care worker)
☐ Qualified clinical/care staff (e.g. general practitioner, psychologist, nurse)
☐ Unit/ward/facility managers
☐ Service managers
☐ Other

Please specify:
_____________________________________________________________________________________

Q2.71 Any additional costs for resources? e.g. Equipment, video or web-development?

_________________________________________________________________________________
Section 3: Level of training and education

Q3.1 Which of the following best describes the level of the training/education provided by this package/programme (as defined by the Dementia Core Skills and Knowledge Framework?)

- Awareness raising - dementia awareness raising, in terms of knowledge, skills and attitudes for all those working in health and social care
- In-depth training - knowledge, skills and attitudes for roles involving regular contact with people living with dementia
- Expert leaders training - enhancing the knowledge, skills and attitudes for key staff (experts) working with people living with dementia designed to support them to play leadership roles

Q3.2 Which of the following are covered by the programme? (Please tick all that apply)

<table>
<thead>
<tr>
<th>Topic</th>
<th>Yes</th>
<th>Unsure</th>
<th>No</th>

### Q3.3 Awareness training - Does your training address any of the following learning outcomes?

<table>
<thead>
<tr>
<th>The learner will...</th>
<th>Yes</th>
<th>Unsure</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>know what is meant by the term 'dementia'</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>be aware of the prevalence of dementia in the UK population</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>be able to recognise signs of dementia and also be aware that these signs may be associated with other conditions or circumstances</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>know what actions individuals can take to reduce their risk of dementia, or to delay onset</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>know why early diagnosis of dementia is important</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>know the actions that people affected by dementia can take in order to live as well as possible after diagnosis</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>understand the importance of recognising the person with dementia as a unique individual</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>be aware of the impact of dementia on individuals, families and society</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>be able to communicate effectively and compassionately with individuals who have dementia</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
<tr>
<td>understand reasons why a person with dementia may exhibit signs of distress and how behaviours seen in people with dementia may be a means for communicating unmet needs</td>
<td>❑</td>
<td>❑</td>
<td>❑</td>
</tr>
</tbody>
</table>
Q3.4  **Dementia Identification, Assessment and Diagnosis** - Does your training address any of the following learning outcomes?

<table>
<thead>
<tr>
<th>The learner will...</th>
<th>Yes</th>
<th>Unsure</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>know the most common types of dementia in the UK and their underlying causes</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>understand the signs and symptoms of dementia that would indicate the need for further assessment</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>know why early diagnosis of dementia is important and the likely outcomes if assessment and treatment is delayed</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>know the progressive nature of dementia and some of the major impairments and difficulties people may face as dementia progresses</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>understand the criteria and the process to be used to gain a diagnosis</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>be able to explain the need for an investigation of signs of dementia with sensitivity and in a way that is appropriate to the person</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>be able to appropriately refer patients to access specialist services and support networks</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>understand the different types of dementia, the stages or variants of these diseases and their primary symptoms</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>understand how to differentiate between dementia, delirium, depression and other conditions presenting with similar symptoms</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>be able to undertake a comprehensive assessment for dementia utilising appropriate investigations and tools</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>be able to establish a differential diagnosis of dementia and the underlying disease processes, where appropriate to role</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>be aware of the potential impact of diagnostic errors</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>
be able to act on the findings in partnership with people affected by dementia and the multi-professional team

be aware of the experience of a person with dementia and their family and carers and be able to communicate with sensitivity about the diagnosis of dementia and related implications

know how to enrol the person with dementia in post-diagnosis support services and advanced care planning

understand the particular impact of a diagnosis for younger people with dementia and their families

understand the needs of people with learning disabilities and dementia

understand the importance of equal access to dementia assessment and diagnosis for people from diverse communities

be able to document assessment and diagnosis decisions

Q3.5  

Dementia Risk Reduction and Prevention - Does your training address any of the following learning outcomes?

The learner will... know the lifestyle factors that may increase the risk of developing certain types of dementia and how lifestyle changes may delay the onset and severity of certain types of dementia

understand motivational factors that may impact on the ability to make changes

be aware of the challenges to healthy living that may be experienced by different socio-economic and/or ethnic groups

be able to signpost sources of health promotion information and support
know how to effectively communicate messages about healthy living according to the abilities and needs of individuals

be aware of dementia risk reduction evidence-based research and national health promotion strategies

be able to develop and disseminate health promotion information and advice

be able to encourage behavioural change in individuals and organisations to promote health and well-being, reduce risk and potentially delay the onset and severity of certain types of dementia

understand the importance of an approach to risk reduction which challenges myths and stigma

be able to monitor, evaluate and improve the effectiveness of health promotion activities

Q3.6 **Person Centred Dementia Care** - Does your training address any of the following learning outcomes?

The learner will... understand the principles of person-centred dementia care: i.e. the human value of people with dementia, regardless of age or cognitive impairment, and those who care for them; the individuality of people with dementia, with their unique personality and life experiences among the influences on their response to the dementia; the importance of the perspective of the person with dementia; the importance of relationships and interactions with others to the person with dementia, and their potential for promoting well-being

understand how person-centred care can provide insights into the experiences of the person with dementia and support care approaches and solutions to meet individual needs

understand the role of family and carers in person-centred care and support of people with dementia
understand how a person-centred approach can be implemented, including the use of advance planning and life story work

understand that a person’s needs may change as the disease progresses

know how to adapt the physical environment to meet the changing needs of people with dementia

understand the significance of a person’s background, culture and experiences when providing their care

understand the importance of clear documentation to communicate the care needs of the person with dementia

understand the value of person-centred care in therapeutic relationships and communication

understand the importance of person-centred approaches in the management and development of services

be able to incorporate person-centred approaches in the management and development of services

<table>
<thead>
<tr>
<th>Q3.7 Communication, Interaction and Behaviour in Dementia Care</th>
<th>Does your training address any of the following learning outcomes?</th>
</tr>
</thead>
<tbody>
<tr>
<td>The learner will... understand the importance of effective communication in dementia care</td>
<td></td>
</tr>
<tr>
<td>understand the impact of memory and language difficulties on communication</td>
<td></td>
</tr>
<tr>
<td>be able to demonstrate active listening skills</td>
<td></td>
</tr>
<tr>
<td>be able to gain a person’s attention before asking a question or beginning a task with them</td>
<td></td>
</tr>
<tr>
<td>understand the importance of speaking clearly, calmly and with patience</td>
<td>Yes</td>
</tr>
<tr>
<td>Task</td>
<td>✔️</td>
</tr>
<tr>
<td>----------------------------------------------------------------------</td>
<td>----</td>
</tr>
<tr>
<td>know how to adapt the environment to minimise sensory difficulties experienced by an individual with dementia</td>
<td>❑</td>
</tr>
<tr>
<td>know the importance of ensuring that individuals have any required support (e.g. spectacles, hearing aids) to enable successful communication</td>
<td>❑</td>
</tr>
<tr>
<td>know how life story information may enable or support more effective communication</td>
<td>❑</td>
</tr>
<tr>
<td>understand the importance of effective communication with family and carers and the expertise that they may be able to offer to support effective communication with the person with dementia</td>
<td>❑</td>
</tr>
<tr>
<td>be able to adapt communication techniques according to the different abilities and preferences of people with dementia</td>
<td>❑</td>
</tr>
<tr>
<td>be aware of the importance of non-verbal communication e.g. body language, visual images and the appropriate use of touch</td>
<td>❑</td>
</tr>
<tr>
<td>understand that the behaviour of a person with dementia is a form of communication and how behaviours seen in people with dementia may be a means for communicating unmet needs</td>
<td>❑</td>
</tr>
<tr>
<td>understand how a person’s feelings and perception may affect their behaviour</td>
<td>❑</td>
</tr>
<tr>
<td>understand how the behaviour of others might affect a person with dementia</td>
<td>❑</td>
</tr>
<tr>
<td>understand common causes of distressed behaviour by people with dementia</td>
<td>❑</td>
</tr>
<tr>
<td>be able to recognise distressed behaviour and provide a range of responses to comfort or reassure the person with dementia</td>
<td>❑</td>
</tr>
</tbody>
</table>
be able to contribute to the development of practices and services that meet the communication needs of people with dementia

be able to promote effective communication in a health and care environment

Q3.8 Health and Wellbeing in Dementia Care - Does your training address any of the following learning outcomes?

The learner will... understand the importance for individuals with dementia to maintain good physical and mental health through nutrition, exercise and a healthy life style that includes social engagement

be aware of anticipating an individual’s health needs e.g. to prevent fatigue, falls, dehydration and hunger

know the action to take in response to identification of fatigue, dehydration and hunger

know how to recognise and manage pain in people with dementia

be able to support an individual in maintaining personal appearance and hygiene

be aware of the impact of delirium, depression and social stressors

understand triggers and responses to stressed or distressed behaviours

understand the role of family and carers in supporting the health and well-being of people with dementia

be aware of the benefits and limitations of medication to manage behavioural and psychological issues including associated risks

be able to support individuals in undertaking psycho-social interventions including validation, counselling, reminiscence and life story work

be aware of the role of therapeutic work including complementary therapies and sensory stimulation
<table>
<thead>
<tr>
<th>Learning Outcomes</th>
<th>Yes</th>
<th>Unsure</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>know how to support people with dementia to access local services and referral pathways including voluntary and community services which would promote their physical and mental health.</td>

<tr>
<td>understand the importance of recording and reporting side effects and/or adverse reactions to medication</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>
be able to administer and review medication safely and appropriately in consultation with people affected by dementia

understand the range of cognitive enhancers, what they do, criteria for eligibility and sources of guidance

understand processes for assessing and prescribing cognitive enhancers

understand the range of drugs to manage behavioural and psychological symptoms of dementia and when such drugs should or should not be used

understand the ethical issues around drug treatments in the care of people living with dementia

understand contra-indications for prescribing anxiolytics and anti-psychotic medication

understand the range of medication to address common physical health problems of people with dementia, including the risks associated with how these drugs may interact with cognitive enhancers and drugs prescribed to address behavioural and psychological issues

understand the importance of regular reviews of prescribed medication

understand how to assess pain experienced by people with dementia and prescribing practice to address pain effectively

be aware of new and emerging knowledge of pharmacological interventions that can be used to enhance the well-being of people with dementia

Q3.10 **Living Well with Dementia and Promoting Independence** - Does your training address any of the following learning outcomes?

The learner will... understand the importance of physical activity (including access to outside space) in maintaining a person’s independence and abilities
be able to support individuals to meet their daily living needs

be able to support individuals to continue their interests, social life and community involvement and know why this is important

know about community initiatives such as the development of dementia friendly environments

understand the needs of individuals for day to day closeness with others e.g. sharing thoughts and feelings

understand how to recognise and respond to cultural, spiritual and sexual needs of people with dementia

understand the role of family and carers in enabling people with dementia to live well

understand how activities can be adapted to suit an individual’s changing needs

be able to incorporate assistive technology to support self-care and meaningful activity

be able to develop strategies to reduce the struggle with unfamiliar environments

be aware of ways to adapt the physical environment to promote independence, privacy, orientation and safety (e.g. to reduce risk of falls)

know about perceptual distortions that may occur in dementia and how the impact of such distortion can be minimised by changes to the environment

be able to contribute to the development of practices and services that meet the individual needs of people with dementia

understand the principles, processes and options for self-directed support
be able to support the person with dementia and their family to access self-directed support if desired

be able to provide dementia specific advice and guidance on adapting the physical and social environment to ensure physical safety and emotional security

be able to lead on the introduction of assistive technology to support self-care and meaningful activity

Q3.11  Families and Carers as Partners in Dementia Care - Does your training address any of the following learning outcomes?

The learner will... understand the significance of family, carers and social networks in planning and providing care

understand the importance of developing partnerships with family members and carers

understand the impact that caring for a person with dementia in the family may have on relationships

understand the importance of recognising and assessing a carer’s own needs, including respite

be aware of the complexity and diversity in family arrangements

be aware that the needs of carers and the person with dementia may not always be the same

understand potential socio-cultural differences in the perception of the care giving role

be aware of the impact on younger carers and their concerns

be able to communicate compassionately, effectively and in a timely manner with care partners

be able to support family carers to access and use information and local support networks
be able to support family carers in considering options and making decisions

be able to gather information about a person’s history and preferences from family carers

be able to contribute to the development of practices and services that meet the needs of families and carers

understand methods to assess a carer’s psychological and practical needs and the relevant support available

understand the potential for dilemmas arising where there are differing needs between people with dementia and their carers

understand the role of personalisation in care e.g. the impact of access to personal budgets

understand legislation relevant to carers and carers rights

be able to signpost carers for further support around legal issues (e.g. lasting power of attorney)

Q3.12 
Equality, Diversity and Inclusion in Dementia Care - Does your training address any of the following learning outcomes?

The learner will... be aware of cultural diversity and equality issues, and how they may impact on people with dementia

be able to adapt assessment and care planning taking account of equality issues (e.g. cultural diversity, disabilities, gender and sexual orientation)

understand diversity in family arrangements and the local community

be aware of the stigma, myths and stereotypes associated with dementia

be aware of the prevalence and impact of younger onset dementia
<table>
<thead>
<tr>
<th>Learning Outcomes</th>
<th>Yes</th>
<th>Unsure</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>be aware of legislation to support carers, including young carers</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>understand the additional concerns of younger carers</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>be aware of the impact of dementia on people with learning disabilities</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>be aware of socio-cultural differences in the perception of the care giving role e.g. based on gender</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>be able to actively challenge any discriminatory practice that may compromise a person’s right to dignity, respect and safety</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>understand the impact that discrimination and stigma may have on the life of the person with dementia, their family and carers</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>be able to lead practice and an organisational culture that values and respects the diversity of individuals</td>
<td></td>
<td></td>
<td></td>

</tbody>
</table>
understand the principles of equality and diversity for access to, and delivery of services.

understand the importance of collaborative working in the provision of support, care and services for people with dementia, their families and carers

Q3.17 Has the impact of training been evaluated?
- Yes
- No
- Unsure
Please provide details (Including who conducted the evaluation, when it was conducted and if a report is available)

Q3.18 If a report or other output is available from the evaluation would you be willing to share this with us?
- Yes
- No

Q3.19 Have there been any barriers to implementing/delivering training? (Please tick all that apply)
- Time
- Resources
- Staff unable to attend
- Lack of support from management
- Other barriers
- None identified
Please give more details:

Q3.20 What has helped with implementing/delivering the training? (Please tick all that apply)
- Designated time
- Resources
- Staff incentives
- Support from management
- Other factors have been helpful
- None identified
Please give more details:

NB: Sections 4-13 have been removed for brevity. The questions in these sections are duplicates of section 2 & 3 for up to 6 packages in total
You have now reached the end of the survey; if you feel that you have more training packages available which may be of interest to our study, please feel free to complete the survey again or get in touch with us using the contact details on the next page.

THANK YOU!

We would like to thank you very much for completing this survey. If you have any questions, please do not hesitate to e-mail us:
