(a) Distribution of number of genes across different numbers of tissues.

(b) Distribution of number of tissues across different numbers of genes.

- **Diagram (a)**: The y-axis represents the number of genes, ranging from 1 to 10,000. The x-axis represents the number of tissues, ranging from 1 to 9, with an additional category for >9 tissues.

- **Diagram (b)**: The y-axis represents the number of tissues, ranging from 1 to 10,000. The x-axis represents the number of genes, with categories for 1 or more, 2 or more, 3 or more, 4 or more, 5 or more, and 9 or more tissues,
