Figure A: Western blot analysis showing CD274 Strep II, Cyclin D2, and β-actin.

Figure B: Graph depicting Cyclin D2 mRNA expression (Log2) across different cell lines: AML, ETO, APL, AML with inv(16)/t(16;16), AML with t(8;21)/MLL, and HSC_BM.

Figure C: Kaplan-Meier curves showing overall survival of patients with elevated 200951_s_at (CCND2) levels. (Klaus H. Metzeler et al., 2008)
