Fig. S2. Kaplan–Meier plots of OS. a In patients who achieved CR or CRi. b In patients who did not achieve CR or CRi. Abbreviations: CI, confidence interval; CR, complete remission; CRi, CR with incomplete hematologic response; LDAC, low-dose cytarabine; OS, overall survival
### Survival Analysis

#### (a) Overall Survival

**Glasdegib + LDAC vs. LDAC alone**

- **Median OS (95% CI), months**
  - Glasdegib + LDAC: 24.4 (14.5–34.0)
  - LDAC alone: 10.8 (8.7–12.9)

#### (b) Progression-Free Survival

**Glasdegib + LDAC vs. LDAC alone**

- **Median OS (95% CI), months**
  - Glasdegib + LDAC: 4.4 (3.5–7.5)
  - LDAC alone: 4.1 (1.8–5.3)
