Supplemental Figure 1:
Wound healing assay SCC-47 0 hours to 72 hour timeline all time points. Wound made same day as treatment with inhibitor.
Supplemental Figure 2:
Wound healing assay SCC-104 0 hours to 72 hour timeline all time points. Wound made same day as treatment with inhibitor.
Supplemental Figure 3:
Wound healing assay SCC-1 0 hours to 72 hour timeline all time points. Wound made same day as treatment with inhibitor.
Supplemental Figure 4:
Wound healing assay SCC-9 0 hours to 72 hour timeline all time points. Wound made same day as treatment with inhibitor.
