GO categories for genes of MEblue module

- Ribosome biogenesis
- Cellular component organization or biogenesis
- Cellular macromolecule metabolic process
- RNA metabolic process
- RNA splicing
- Ribonucleoprotein complex biogenesis
- Nuclease-containing compound metabolic process
- RNA metabolism
- Cellular nitrogen compound metabolic process

Enrichment profile

Respiratory chain

H9_CCDC144NL-AS1_KD (positively correlated)
H9_NC (negatively correlated)
