Title: Test-retest reliability of Multidimensional Dyspnea Profile recall ratings in the emergency department: a prospective, longitudinal study

Version: 4 **Date:** 6 April 2012

Reviewer: John Petkov

Reviewer's report:

The article reads much better than before. The addition of confidence intervals makes this a more robust analysis.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
