

Reviewer's report

Title: What are the roles involved in establishing and maintaining informational continuity of care within family practice? A systematic review

Version: 2 Date: 28 October 2008

Reviewer: Ronda Hughes

Reviewer's report:

Minor Essential Revisions:

- It is important to state why only family practice was considered, as there are many other physicians that provide primary care in outpatient settings.
- A distinction should be made concerning continuity of care with a "practice" (implying more than just physicians) or with clinicians (e.g., physicians, nurses, etc.), or both.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
