General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

I think this manuscript is very interesting. However, it would improve the manuscript to change some parts.ã€€ã€€

- 1) You should show the photograph of resected specimen.
- 2) Why wasn't it found before such big liver metastases performing an operation?
- 3) You should discuss why capecitabine is effective for this carcinosarcome (especially sarcomatous component).

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
