

Reviewer's report

Title: Antimicrobial, antimycobacterial and antibiofilm properties of *Couroupita guianensis* Aubl. fruit extract

Version: 1 **Date:** 10 September 2012

Reviewer: Zehra Yuksekdog

Reviewer's report:

Specific comments:

- The unit 'L' should be indicated in capital letter.
- In materials and methods and Table 1, *Bacillus subtilis* is Gram negative bacteria. But *Bacillus subtilis* is Gram positive bacteria. Please see Brock Biology of Microorganisms, Michael T. Madigan, John M. Martinko, Jack Parker
- The results were not expressed in numerical data. Please express the results also in numerical data in results and discussion.
- All abbreviations should be written in the names of.
- Space after each word should be left
- There are problems with the comparison of the results with a control group
- The references writing should be checked. There are errors in references.
