

Reviewer's report

Title: Biomedical potential of genetically modified flax seeds overexpressing glucosyl transferase gene.

Version: 1 **Date:** 15 August 2012

Reviewer: Alister Muir

Reviewer's report:

Major Compulsory Revisions

The authors must address the issue of lack of proper controls in the two areas outlined in the attachment. Depending upon the outcome of the experiments required to address these issues, the abstract and conclusions may require significant revisions

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no interest in the work described in this manuscript or in the generation of transgenic flax.
