Reviewer's report:

1. The title of the article can be modified as Hair growth promoting activity of hot water extract of *Thuja orientalis*.
2. It is not necessary to mention a hot water extract of *Thuja orientalis* every where in the text as it is looking very odd while going through your article. hence once you can mention this in the abstract, then once in the method, and once in the results and discussion part.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published
