### **Reviewer's report:**

Minor Essential Revisions

1. p.6: Please specify the inclusion criteria in a table
2. p.6: Data were recorded using a questionnaire
3. p.7: I suggest that the authors briefly explain "donkey" since many readers are not familiar with such means of transport.

General: I suggest that the authors briefly explain the characteristics of "tetanus" – although a comparably rare event - since this disease/complication is almost unknown to many of the readers from industrialized countries
