Reviewer’s report:

Thank you for the opportunity to review this paper. This paper was written for focusing on workplace violence against nurses. Overall, it is an interesting and important topic. This effort needs to be more strength.

My other comments are listed in the following—

1- See the first paragraph in abstract (background) to assess what???????????? ???

2- The introduction section needs to be more broaden.

3- What about the research hypotheses or research question ??

4- Sample section is not clear , why you choose this number?? What about your research equation ?/.

5- The papers needs editing and a proofreading.

6- Look to your references, most of them were old. There are many studies that discussed the problem of safety, stress and violence during 2013-2015. See these as an example;
