

Reviewer's report

Title:Validating a tool to measure nurse motivation in rural Nepal

Version:3**Date:**23 January 2015

Reviewer:Laetitia Rispel

Reviewer's report:

I do not think that the authors have addressed many of the comments that I have made previously (e.g. about definitions, and the focus of the paper).

I suggest the editors make a decision on the paper.

Level of interest:An article whose findings are important to those with closely related research interests

Quality of written English:Needs some language corrections before being published

Statistical review:No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
