Reviewer’s report

Title: The quality of reporting of RCTs used within a postoperative pain management meta-analysis, using the CONSORT statement

Version: 2 Date: 12 May 2012

Reviewer: Mehmet Fatih Can

Reviewer’s report:

I would like to congratulate the authors for their effort to do this research. I believe their research has the potential to contribute to the field of quality improvement in reporting of RCTs.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
