Reviewer's report

Title: A do-not-attempt-resuscitation order does not diminish pediatric ICU support but prolongs inevitable death?

Version: 4 Date: 9 April 2013

Reviewer: oguz dursun

Reviewer's report:

1 - The title of the manuscript is not appropriate with the content of this article. 'Prolonged non-survival in PICU: Does a do-not-attempt-resuscitation order matter?' may be more appropriate.
2 - Page 7: toxic epidemolysis - 'toxic epidermolysis' - ?
3 - I could not see the 'table 2' in the text.
4 - Page 12: post-mortum - post mortem ?
5 - References should be written according to the rules of the journal and same style.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
