Reviewer’s report

Title: Ondansetron Prevents Postanesthesia Shivering: A Meta-Analysis

Version: 1 Date: 11 November 2013

Reviewer: Parvin Sajedi

Reviewer’s report:

1. What is beginning time of your study in methods section?
2. Is it safety only not happening bradycardia? What about other complications?
3. With attention to differences between shivering in GA and neuroaxial anesthesia, is it suitable to enter both studies in this meta analysis.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
