Reviewer's report

Title: Tissue oxygenation as a target for goal-directed therapy in high-risk surgery: a pilot study

Version: 1 Date: 12 September 2014

Reviewer: Omar Adel Omar

Reviewer's report:

Well designed study, would recommend publishing without conservation. I just wish in the future for a follow up larger size study that would be funded by another source than Hutchinson Technology.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
