Reviewer’s report

Title: Influence of the timing of administration of crystalloid on maternal hypotension during spinal anesthesia for cesarean delivery: preload versus coload

Version: 1 Date: 22 January 2014

Reviewer: Nermin Kelebek Girgin

Reviewer’s report:

I read this paper carefully, but this findings does not make any sense to me. Also, this study does not add any innovation to the literature.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
