Reviewer's report

Title: The impact of administration of tranexamic acid in reducing the use of red blood cells and other blood products in cardiac surgery.

Version: 2 Date: 13 April 2006

Reviewer: Mark Ereth

Reviewer's report:

General
I am comfortable with the changes made by the authors and agree with publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
