Reviewer’s report

Title: Prevalence and impact of alcohol and other drug use disorders on sedation and mechanical ventilation: a retrospective study

Version: 2 Date: 1 March 2007

Reviewer: Jorgen B Dahl

Reviewer’s report:

General
I believe the reviewers comments have been addressed appropriately. In particular, the authors have expanded their discussion on MV duration to address the Reviewer’s comments on this important aspect of the study.

-----------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

-----------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

-----------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
None

-----------------------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
