Reviewer's report

Title: Early atherosclerosis and cardiac autonomic responses to mental stress: a longitudinal population-based study of the moderating influence of impaired endothelial function

Version: 1 Date: 23 October 2009

Reviewer: Anna Kablak-Ziembicka

Reviewer's report:

Minor Essential Revisions
Nice experimental study. Please, provide some p-values in the abstract, and result section of abstract seems to brief. So, conclusions seem not to be supported by the results and statistical significance

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

None. No conflict of interest
