Reviewer's report

Title: Better long-term survival in young and middle-aged women than in men after a first myocardial infarction between 1985 and 2006. An analysis of 8360 patients in the Northern Sweden MONICA Study

Version: 2 Date: 15 December 2010

Reviewer: Tom Briffa

Reviewer's report:

The authors have satisfactorily addressed the matters raised in my initial review of the manuscript. Together with the revisions made in response to the two other reviewers that manuscript is much improved.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
