Reviewer’s report

Title: Double auricles of the right atrium: a unique anatomic deformity

Version: 1 Date: 15 December 2010

Reviewer: Farhood FS Saremi

Reviewer’s report:

The case report does not provide detail information about their findings and image is not informative either. No description is provided to differentiate this case from a right juxtaposition. Echcardiography images would have helped if available.

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
