Title: A Retrospective Cohort Study of the Potency of Lipid-lowering Therapy and Race-gender Differences in LDL Cholesterol Control

Version: 3 Date: 11 May 2011

Reviewer: Stephen D Persell

Reviewer’s report:

Minor essential revisions

Page 6: mm/dl should be mg/dl,
Page 6: LDL goal <130 not <129

Table 2: is the far right column adjusted for all variables listed under LDL management? If so the column is mislabeled. If not, then I don’t see the results adjusted for these covariates.
