Reviewer’s report

**Title:** Electrocardiogram features of premature ventricular contractions/ventricular tachycardia originating from the left ventricular outflow tract and the treatment outcome of radiofrequency catheter ablation

**Version:** 1  **Date:** 12 July 2012

**Reviewer:** Mahmoud Houmsse

**Reviewer’s report:**

Ge Bei, Ji Kang-Ting, Ye Hai-Ge, Li Jia, Li Yue-Chun, Yin Ri-Peng, Lin Jia-Feng wrote an excellent review of the Electrocardiogram features of premature ventricular contractions/ventricular tachycardia originating from the left ventricular outflow tract and the treatment outcome of radiofrequency catheter ablation.

The manuscript is well written but slightly long. I recommend in favor of accepting the manuscript for publication.
