Reviewer's report

Title: Hypertension; a Hidden Problem among Adults of Gondar Town, North-West Ethiopia: A Community Based Cross-sectional Study

Version: 1 Date: 17 September 2012

Reviewer: Rufus Adedoyin

Reviewer's report:

Title:
1. The title does not reflect the content of the manuscript.
2. There are some risk factors studied that should be integrated into the title.

Methodology
1. How many kelebes were chosen for the study?
2. How many adults where involved per household?
3. Was the questionnaire self administered?
4. Were all the participants literate to be able to fill the questionnaire?
5. Author should elaborate more on the content of the questionnaire. E.g How was the physical activity assessed?

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
