Reviewer's report

Title: A systematic review of patient reported factors associated with uptake and completion of cardiovascular lifestyle behaviour change.

Version: 1 Date: 26 September 2012

Reviewer: Neree Claes

Reviewer's report:

Dear Editor, I reviewed this systematic review of patient reported factors associated with uptake and completion of cardiovascular lifestyle behaviour change. The methodology is 'lege artis' performed. I don't have suggestions for revisions. And I think there findings are of a particular interest for publishing. prof Neree Claes

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
