Reviewer’s report

Title: Idiopathic premature ventricular contractions and ventricular tachycardias originating from the vicinity of tricuspid annulus: Results of radiofrequency catheter ablation in thirty-five patients

Version: 1 Date: 27 February 2012

Reviewer: Nilesh Mathuria

Reviewer’s report:

The authors have answered all prior comments sufficiently.

On Figure 6A, title should read "pattern" rather than pattern.

On page 13, line 10 rather than stating "S wave amplitude were more lessening...", should read S wave amplitude was reduced...

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
