Reviewer’s report

**Title:** The effect of cardiac rehabilitation on anxiety and depression in patients undergoing cardiac bypass graft surgery in Iran

**Version:** 2  **Date:** 25 November 2011

**Reviewer:** Siegfried Kasper

**Reviewer’s report:**

The manuscript has been corrected accordingly to our original criticisms:
- the spelling is correct and
- gender has no significant influence on the results, but it should be mentioned in the text!

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
