Reviewer's report

Title: Trends in the use of electrical cardioversion for atrial fibrillation: influence of major trials and guidelines on the clinical practice

Version: 2  Date: 27 May 2012

Reviewer: Luca Santini

Reviewer's report:

The authors answered appropriately and extensively to all my previous comments. The current version of the manuscript is complete and, in my opinion, ready for the publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
