Reviewer’s report

Title: Effects of carvedilol treatment on cardiac cAMP response element binding protein expression and phosphorylation in acute coxsackievirus B3-induced myocarditis

Version: 2  Date: 28 October 2013

Reviewer: Andreas Henke

Reviewer’s report:

Basically I agree with the answers to the comments of the reviewer.
However, please give a much more precise description of the virus titrations of heart tissue (page 8 lines 19-21).
Please have a look at your Figure 10B. Something is wrong with the labeling.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
