Reviewer's report

**Title:** Evaluation of the potential pleotropic role of angiotensinogen gene polymorphism in atherosclerosis

**Version:** 2  **Date:** 19 November 2012

**Reviewer:** ABOUD NESRINE

**Reviewer's report:**

Dear Editor;

This article titled “Evaluation of the potential pleotropic role of AGT polymorphism in atherosclerosis” was good handled. The author presented sufficient explication when responding to all the remarks and the revisions have been made adequately. The references were restructured well. I have no change to recommend for this corrected version.

It was my pleasure to review the revised article.

Yours sincerely,

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
