Reviewer’s report

Title: Comparison of lower extremity atherosclerosis in diabetic and non-diabetic patients using multidetector computed tomography

Version: 4 Date: 14 September 2014

Reviewer: Jorge Escobedo

Reviewer’s report:

The authors have made the suggested changes. It would be better to state when t test or Mann-Whitney have been used. When the later has been used, data should be expressed as median an interquartile range.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
