Reviewer's report

Title: Prevalence and risk factors of abnormal left ventricular geometrical patterns in untreated hypertensive patients

Version: 4 Date: 20 September 2014

Reviewer: Katrina Poppe

Reviewer's report:

I am happy that the authors have addressed my initial comments.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
