Reviewer's report

Title: The serum TGF-beta1 and Smad3 levels are closely associated with coronary artery disease

Version: 7 Date: 16 January 2014

Reviewer: Yvan Devaux

Reviewer's report:

This is a first revision of the paper by Chen et al. Most of this reviewer's comments have been addressed. The authors have done some efforts to proof-read their manuscript. However, some language errors remain that need to be corrected before the manuscript can be deemed suitable for publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
