Reviewer's report

Title: Validation of continuous clinical indices of cardiometabolic risk in a cohort of Australian adults.

Version: 1 Date: 4 January 2014

Reviewer: Ahmet Selçuk Can

Reviewer's report:

The manuscript is scientifically sound. My evaluation of the manuscript is as follows:
1. The question posed by the authors is clear and well defined.
2. The methods are acceptable.
3. The data are sound.
4. The manuscript adheres to the relevant standards for reporting.
5. The discussion and conclusions are balanced and adequately supported by the data.
6. The limitations of the work are clearly stated.
7. References are adequate.
8. The title and abstract reflect the data and what has been found.
9. The writing is excellent.

Decision: accept for publication

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
