Title: Impact of Adiposity on Cardiac Structure in Adult Life: the Childhood Determinants of Adult Health (CDAH) Study

Version: 2 Date: 9 November 2013

Reviewer: Elaine Rush

Reviewer's report:

The authors have responded to all queries - and it appears that they have adjusted the manuscript appropriately. I cannot make a final decision until the input of an independent biostatistician is received. If they are OK then yes - accept.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
