Reviewer's report

Title: Edta chelation therapy for cardiovascular disease: a systematic review

Version: 2 Date: 21 September 2005

Reviewer: Max H Pittler

Reviewer's report:

General

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can
be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the
author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------

What next?: Accept without revision
