Reviewer's report

Title: The incidence of myocardial injury following post-operative Goal Directed Therapy

Version: 2 Date: 20 February 2007

Reviewer: Guillermo Gutierrez

Reviewer's report:

General
I commend the authors by the changes made, since they allow ample discretionary assessment by readers.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

You may want to substitute solid and dashed lines for the red and blue colors used in figure 2.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
