Reviewer's report

Title: Flow Mediated Dilation of the Brachial Artery: An Investigation of Methods Requiring Further Standardization

Version: 2 Date: 12 March 2007

Reviewer: Michiel Bots

Reviewer's report:

General
I am fine with the current version of the paper. The authors have addressed my comments adequately.

--------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
