Reviewer's report

Title: Measurement of Coronary Calcium Scores or Exercise Testing as Initial Screening Tool in Asymptomatic Subjects at Risk for Coronary Artery Disease: an Evaluation Study

Version: 2 Date: 16 April 2007

Reviewer: Shuichi Hamasaki

Reviewer's report:

General
The authors corresponded very well to my comments. This revised paper will be highly recommended to publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
