Reviewer's report

Title: Association of sICAM-1 and MCP-1 with coronary artery calcification in the NHLBI Family Heart Study follow-up examination

Version: 2 Date: 17 September 2007

Reviewer: Robert MacFadyen

Reviewer's report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

A more accurate title to describe the setting of the sample frame is required

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

'I declare that I have no competing interests' below.
