Reviewer's report

Title: Are Coronary Event Rates Declining Slower in Women Than in Men? - Evidence From Two Population-Based Myocardial Infarction Registers in Finland

Version: 3 Date: 7 October 2007

Reviewer: Yariv Gerber

Reviewer's report:

General
My previous comments were adequately addressed

-----------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
