Reviewer's report

Title: Outcomes of Patients Hospitalized for Acute Decompensated Heart Failure: Does Nesiritide Make a Difference?

Version: 3 Date: 12 November 2007

Reviewer: John Rumsfeld

Reviewer's report:

General
This reviewer greatly appreciates the responsiveness, patience, and understanding of the authors in undertaking revisions to the manuscript. The authors have addressed all concerns, and the manuscript is very good. No further comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
