Reviewer’s report

Title: Predictive Value of Coronary Calcifications for Future Cardiac Events in Asymptomatic Patients with Diabetes mellitus: A prospective Study in 716 Patients over 8 Years

Version: 3 Date: 2 September 2008

Reviewer: Paolo Raggi

Reviewer's report:

No further comments regarding the substance of the paper, but the language still needs some editing.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
