Title: Spinal Cord Stimulation in the Treatment of Refractory Angina: Systematic Review and Meta-Analysis of Randomised Controlled Trials

Version: 2 Date: 14 January 2009

Reviewer: Udho Thadani

Reviewer's report:

Authors have responded to my comments and have made necessary changes in the revised manuscript. I am still concerned that the number of patients studied with the exception of ESBY trial is very small indeed; and meta-analysis of these trials may provide misleading conclusion!
