Reviewer's report

Title: Reproducibility of wrist home blood pressure measurement with position sensor and automatic data storage

Version: 2 Date: 21 October 2008

Reviewer: Takayoshi Ohkubo

Reviewer's report:

Major Compulsory Revisions
1. Please address my previous comments (No.6) "Mechanisms underlying the inaccuracy of the wrist BP measuring device should be discussed.". Following article may be useful to include important mechanisms: "Kikuya M, et al. Accuracy and reliability of wrist-cuff devices for self-measurement of blood pressure. J Hypertens. 2002 Apr;20(4):629-38.".

Minor Essential Revisions
1. There are mistakes in labels of figures. Please correct throughout the manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
